

James Carter, SJ
60 Years in the Priesthood

Administering the Sacraments, teaching, administration – the works to which I have been assigned these last 60 years – have given me an opportunity to grow as a person for others. There have been many challenges, but many more occasions of joy. To be a Jesuit is to grow as a friend of Jesus. Jesus told us on many occasions that we can find Him in those around us – especially those in need. I thank God for the enormous love I have received in return for the little I have been able to give.
